

The Upledger Institute presents

Clinical Applications of CST & the Cranial Nerves

Clinical Applications is an engaging, hands-on practicum to help Upledger-trained practitioners sharpen their CST skills. Classes are limited to just five participants, and are held in an informal clinical setting. In addition to treating real-world clients using multi-hands CranioSacral Therapy and also treating fellow students, this class focuses on the 12 cranial nerves. Course content will be geared toward each student's specific learning objectives.

Prerequisite: CST II

Course Highlights:

In this class, practitioners who have taken at least Upledger's CST II course will:

- Learn to better read the client's needs through Whole Body Evaluation.
- Gain expertise in blending and melding through in-depth explorations of neutral therapeutic presence.
- Fine-tune palpatory skills.
- Learn anatomy, assessment, and treatment techniques for the cranial nerves specifically geared toward their level of experience – beginning, intermediate, or advanced.
- Review other material of your choice.
- Participate in in-depth group discussions with your colleagues.
- Build confidence and skills in preparation for Techniques or Diplomate Certification testing.

This course fulfills the Diplomate Certification requirement that candidates complete a 20-hour-minimum Preceptorship Program.

To be held in
Los Angeles
June 17 - 21, 2014
